TOP 20 SELLER

Comfort & design at the highest level

**SOMEWHERE
IN THE WORLD
IS ALWAYS
SUMMER!**

Unlike conventional thong sandals, the NovaPED exclusive made-to-measure sandals provide the foot with sufficient hold and support, while at the same time creating comfort and convenience.

However, the overall concept is not only impressive in terms of comfort: Individual design requests, such as exclusive Swarovski stones, lambskin lining or a laser engraving in the cover in the heel area of the sandal are just some of the many special extras.
